

Security Incident Response

Sample runbook - security operations

Fixture purpose

This fictional runbook provides safe sample evidence for search and citation demonstrations.

Stabilize and preserve

During an incident, preserve relevant logs, record a timestamped timeline, and assign one coordinator for operational decisions.

Contain access

After containment, rotate exposed credentials and verify that unauthorized access has stopped.

Document each follow-up action with an owner and a due date.

Closeout

The response lead records lessons learned only after evidence has been preserved and recovery is confirmed.
